

THE LIAISON

Monthly Newsletter Highlighting ACPA-Sponsored Events

Letter from the Vice Chair

At the start of my career not too long ago as a graduate student, Careers in Student Affairs Month served as a time to encourage my wonderful student leaders to enter an influential field. This month, I asked the Ambassadors and Coordinators how we hold the field and systems accountable. The conversations we had this month truly reinvigorated me to "be the change". We hosted Nick Tapia-Fuselier and Gabe Marenco-Garcia during our monthly All-Call, two incredible ACPA leaders who encouraged our Ambassadors to push for accountability as the field "has the capacity for good" while embodying care for self and others during this time.

Writing this at the end of a very difficult couple of weeks allows me to reflect and be filled with gratitude that I am in community with other professionals at the beginning of their career. I strive to make our Community of Practice a space that others feel gratitude towards, as well.

Until next month...

- Julie
